

COMOMUTY SCIENC MUSEUM

EXPERIENCE SCIENCE

## Explore our Museum

### Explore Together

Come join us at the Community Science Museum where we're committed to making science accessible to all. Over the course of human history, science has developed from our early understanding of fire, wind, water and earth to exploring everything from galaxies far away to the very building blocks of life itself. The aim of our museum is to create a space where everyone can experience the wonders of our discoveries and perhaps even ignite a lifelong passion to continue the exploration of the world around us. We believe science should not be confined to the textbook, but brought to life through exhibits. There are many varied subjects of science to explore. This is why we have over 100 exhibits designed for you to interact with and play around to see science come to life (apart from the dinosaur exhibits -they only come to life at night when everyone's gone home).

### Opening Hours

- Monday: Closed
- Tuesday 16:00 - 10:00
- Wednesday 16:00 - 10:00
- Thursday 16:00 - 10:00
- Friday 19:00 - 10:00
- Saturday 16:00 - 9:00
- Sunday 13:00 - 9:00
